CREATOR CREATION

James Gardiner, has been the face of modern science every science he was 12 years old. Many call him G.O.D, short for God of Deci-creation.

He is not only the only person who has gotten a Noble prize in all the fields but had achieved it at the youngest age of only 14 years. Some people revere him as the peak of human evolution.

At age 12 he had invented a machine to access different dimensions, at age 15 he single handedly solved terrorism, at age 16 he gave humanity a revolutionary new farming system and solved hunger. At 17 he gave us immortality and at 18 he gave us Fission Technology. The list of the papers

he has written goes on and on, every single year he has lived he has given this planet and humanity a new reason to live,

James Gardiner- a evil mastermind?

a new reason to look forward to tomorrow.

Although some feel he has already done enough and should be given all the free-

dom to do as he pleases. Others worry and treat him like a threat not wanting to give him any more power.

He has invented, discovered and explained humanity several things about our survival that it no longer seems real that he is a human.

As Gardiners 22th birthday comes closer many are reminded of Sora the Wise's 100th prediction. The prediction that reads-

"When humanity is brought to its peak and the outsider begins to control its head, he will be tempted and commit a sin. A sin so grave humanity will have to spend a hundred generations to understand its sin."

SORA THE WISE

Sora Bi Shuniya, the worlds most renowned philosopher suddenly appeared amongst us in the late 21st century with his predictions about inventions in the near future that would revolutionize mankind forever.

His predictions found during the unearthing of an ancient civilization have not yet been assigned a date. It is estimated that he lived in the bronze era but nobody knows for sure. His predictions all written in ancient Japanese and Tamilian derived Sanskrit are puz-

zling as the languages never existed during that period.

His 99 predictions about the 21st century have so far all been terrifyingly accurate. Nobody knows anything about him and yet he seems to have known everything about us.

SORA'S FUTURE SENSE

Future Sense was the name that Sora had inscribed onto his tablet. While the tablet itself is made out of mysterious materials the things inscribed onto it pose us with even greater questions.

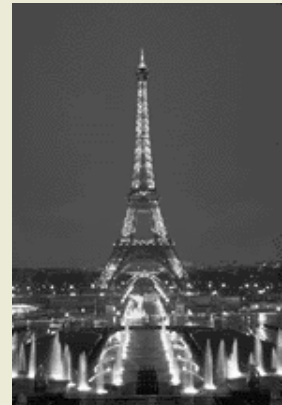

The Future sense, a tablet older than the universe itself if carbon dating were to be believed, has a lot of meaningless but accurate predictions that describe the cultures, inventions, books,

economic developments and many other things in great detail, but it is known for two of its greatest predictions, that date of its excavation and the other being the rise of the "New Social Order" or the N.S.O in short.

Recent pictures that have been released to the public reveal that Sora accurately predicted the collapse of the ideology that is a nation in the 21st century. That it

would be overthrown by the N.S.O with the precise date time and events. Yes, the actions of N.S.O, a body/organization of like minded people with an average of I.Q of over *Two Hundred Fifty Seven*, was predicted over a trillion years ago.

After the release of this information to the public, it seems understandable why some people want to believe that James Gardiner is evil.

JAMES GARDINER LIFE AS A CHILD

*"So that he
lives on forever
I bestow my
brother with the
name
Indefinite"
-James Gardiner*

James Gardiner was not always like how he is today. He was not born a prodigy and neither was he caught up in an unfortunate accident that gave him the ability to think faster and process more information than any human alive.

Well all said above is not completely true. Kinston Gardiner and Martha Gardiner, James's parents on 29th April 2089

were expecting to welcome another member to their family. One who would be a younger brother to James. Unfortunately his brother was born with a rare condition that allowed him only 24 hours in this world.

It was after this unfortunate incident that James retreated into a year of complete isolation and solace. He never

spoke to anybody and focused on absorbing information. And after this year was done he came out with an operation using a device that could have saved his brother.

It was then that he had shown the world how truly capable he was, by evolving into something beyond human for the sake of his brother.

THE TRAVEL OUTBREAK

Gardiner had moved on to researching and developing techniques in regards to time travel.

Many born before the 85's remember this day as the darkest day of mankind. After time travel was invented James had for unknown rea-

sons forbidden it's use.

The United Nations after a conference forced James to surrender his Time Travel machine, and it lasted for one whole day.

This day was burnt into people's memories as the most tragic day in the history of

mankind where we learnt the worst secrets about ourselves and the universe we live in.

The very next day James had founded the N.S.O and overthrown all the nations in the world establishing successfully the "New Social Order".

THE NEW SOCIAL ORDER

Founded by James Gardiner as its head and the people he trusted under him. Its ideas quickly spread like wild fire. Life was made fair and just for everyone. Use of weapons by a group was made illegal. A new justice force the *Speed Reaction Force*, based on A.I., was placed everywhere to control any outbreaks.

The new laws made working for money illegal, instead work was decided based on the **I**ntelligence and **C**apability **Q**uotient of a person for the job.

Lots of institutions like schools and courts were rebuilt from scratch with the new ideology in mind.

The I.C.Q was a test that not only considers I.Q but the intentions and psychological traits of the person specific to job. It can be taken multiple times at different ages. Basic needs like food, water and shelter were taken care of by the N.S.O. People's contribution to the society was rewarded by moving people up the I.C.Q rank and increasing their comfort of life.

People with disabilities were given many choices like they could undergo treatment or transfer their consciousness into an artificial body which was a replica without problems.

Jobs now had different tiers to them, where the lowest tiers were handled by artificial intelligence while the higher tiers were handled by those with the highest I.C.Q for the job.

A new society where every single person was valued without an identity was born.

JAMES ANNOUNCES LOVE

Last year in the first four months James was spotted leaving his work a lot earlier than usual. His usual go to spot after his work was the "Bean and Buns Café" which is famous for its world class coffee.

Later on his birthday he confessed to a waitress in the coffee shop and she accepted

at least that is how the story goes. Many, without any proof or reason, believe this to be an act where James is only doing so to suppress any form of discrimination forming in the minds of the people based on the I.C.Q.

James and Alicia have together written a book about their meeting and exploration in the

field of love. Recently after her new I.C.Q test she has been seen researching human psychology with James.

They truly look like a pair made for each other. Fluttering and singing about each other where ever they go. Their marriage is on James's birthday. Of course all of Earth has been invited.

"One knows when it is his time to stop, I have found mine and it is with her"
- James Gardiner

A NEW BETA PROGRAM

James has never failed to surprise us. Like every year this year on James's birthday a new technology will be revealed, but this time there is a limited beta program open to the public to test the invention. Nobody really knows what it is about but registrations for entering the beta program have been disclosed on the

official N.S.O page. A select few individuals will be admitted into the program which will be lead by Samuel Joseph, a recent addition to the top ranks who is estimated to have the 10th highest general I.C.Q on earth.

WE'RE HIRING, SEE
SECOND HALF

WRITTEN BY -
P. EMILY NUUIL

Telecom Building,
219-XM Publisher's Street
New Brighton, I.C. Empire

We have been writing articles since the beginning of the revolutionary year of 2090. We write for the world to know the truth, we write for the truth to be heard. What we write is for the truth and truth alone.

For further details contact:

WeahntonParolai@truepyramid.com

Truth for everyone, Truth to everyone.

NEW OPPORTUNITIES FOR EMPLOYMENT

After the addition of Weahnton Parolai to our executive staff the growth of True Pyramid has seen new heights. The True Pyramid is backed by many of the top I.C.Q's in the world like Mailey Parolai and Charles Samson.

With their confidence in us we without doubt will go beyond anyone's expectations and imaginations. True to our work always, we will keep writing the truth about people of high value.

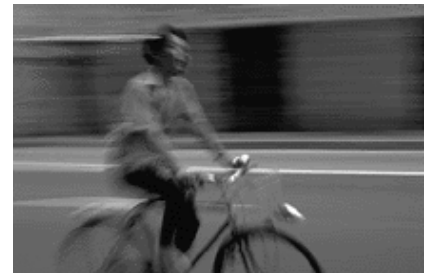

The Explorer's Edition will remain focused on people of supreme importance to the world.

We are currently short on staff and are hiring for future writing. The executives have predicted that something big is about to happen, and honestly with Sora's 100th prediction it seems likely.

To be hired for the writing department you must have a minimum I.C.Q of 120 in the writing skill profession along with a certificate of conduct.

To apply for the job contact:

jobs@truepyramid.com
