## CREATION GARDEN, WHAT IS IT?

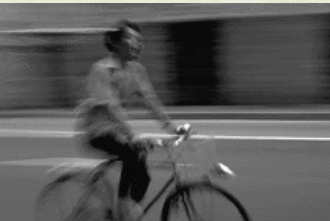

After a year of stalling and keeping things away from the public eyes, Gardiner has finally unveiled the "Creation Garden". Although it houses most if not all of the top *one hundred* I.C.Q within itself, the main center of attraction is definitely the **Memory Palace**.

No matter how one looks at it, the Memory Palace will truly take every single person to the next stage of evolution. As Gardiner best explained it

*"From today the power of the human brain will no longer be limited to the individual, the Memory Palace will give each one of us a giant place to think."*

The Memory Palace is the epitome of the 3rd Gardiner

principle that we all live by "Give all that you cannot do to someone that can and include it in yourselves."

**"This will be the birth of unlimited creation"**  
- James Gardiner

The Memory Palace is a gigantic super computer that has the experience of several lifetimes and it grows at a rapid rate. It exists in a dimension right next to ours and uses

special large scale entanglement technologies to process and deliver information at high speeds to people who need it.

For a person to make use of the Memory Palace one must enter sacred grounds and give up all the idea of self becoming one with the knowledge that it possess.

The Memory Palace allows a person to understand and use all the information that has been previously understood by mankind which includes everything from how to create a dish the perfect way to the understanding the way to rule a country.

It truly is the greatest gift that mankind has received. Long live Gardiner.

## A MEMORABLE INVENTION

Well Gardiner has invented lots of things in his life to this date but this by far seems to be the best. It is the **Memory Read Write** device. You can use it after connecting it to the Memory Palace to read and write memories into the human brain.

Currently only the *Supreme Order Courts* have been granted the permission to use M.R.W devices. Only one other prototype copy has been released and is being tested by Samuel Joseph on people who have volunteered.

This new invention is predicted to have a huge impact on reduced but stagnating crime rate by acting as a powerful deterrent.

Many see it as the ultimate judgement for the soul.

## THE BIG 100

The Creation Garden has exactly hundred homes which house the early Big 100. The ones who's I.C.Q test scores are beyond comparison to normal people.

The houses go clock wise starting from the main entrance to the Memory Palace all the way to the outskirts of the garden. They have been arranged in a circular manner to show that the Memory palace belongs to everyone and will push ahead all of mankind.

*"Humanities  
greatest invention  
yet."  
-The Incan*

## ELECTRIC GREEN

Like most of the other architectural feats during the last 25 years, the Creation Garden is not only mean for the Memory Palace. The Memory Palace on extensive usage generates large amount of ions will be repurposed using underground channels laid all through out the garden and the *Neelank* river to generate large amounts of elec-

## TELESCOPIC

The Memory Palace is fitted with specially made Telescopic Crystals that have made it possible for near instant transmission of data from within the palace to the outside. Both to enter and to exit the gardens one must go from within the memory palace.

The Memory palace is divided into four sections to better control the flow of the crowd of people once it has been started.

*"No one but Mr. Gardiner knows how to charm all of humanity at once"*

*-The Floating Orb*

## SPECIAL TOUR

On top of housing the worlds BIG 100, its creator James Gardiner is rumored to live in a secret room for the duration of its first few days to see to it that everything runs as smooth as possible.

He has also put out an open contract saying ones that are able to find him will be accompanied on a special tour guided by him.

## DEDICATED TO DR. SAMUEL JOSEPH

Samuel Joseph, one of the founding members of the Incan Empire has been along side James Gardiner for longer than any other person alive on this planet.

He was the one who was with him when he started and has remained by his side since then. It has been a long time since he has shown himself to the media but recently has started coming out once again.

Like most of us he has faced a lot of problems but, unlike many of us even in his worst times he has built the courage to rise up and show everyone how important and necessary it is to put tragedies behind ourselves.

Many may not know this but after he lost his wife last year he has done nothing but work harder and harder without showing even the slightest hint of pain.

He has worked more than any other soul alive to see project Creation Garden come to life. Having worked day and night, putting aside all desires and needs I'm sure in a few days time he will be proud of himself and so will all of us here at the True Pyramid be.

In honor of Dr. Samuel Joseph I request everyone reading this to

please sign the petition above to give Samuel Joseph a great bonus and a happy retirement.
